

MACHINE SPECIFICATION

THREAD ROLLING MACHINE

Cold form threading that produces stronger, more accurate threads at production speed, up to 30% stronger.

MADE IN INDIA

SINCE 1988

TWO PLANTS

KEY BENEFITS

STRONGER THREADS

Unbroken grain flow gives up to 30% higher strength.

CHIPLESS PROCESS

Threads formed by displacing material, so no waste.

FASTER OUTPUT

Much quicker than tapping or cutting the thread.

LOW RUNNING COST

Long die life and minimal tool maintenance.

WHY ADHUNIK ENGINEERS

THE COMPLETE LINE

Cold heading, thread rolling, trimming and slotting, all from one maker.

THREE GENERATIONS

Family run precision engineering since 1988.

SPARES ON HAND

Genuine spare parts kept in stock to keep you running.
