

MACHINE SPECIFICATION

TRIMMING MACHINE

Automatic head trimming that turns forged blanks into clean, uniform hexagon and polygon bolt heads.

MADE IN INDIA

SINCE 1988

TWO PLANTS

KEY BENEFITS

CLEAN HEADS

Precise flash removal for a standardized finish.

HIGH EFFICIENCY

Trims a large number of bolt heads quickly.

VERSATILE TOOLING

Handles hex, square and polygon heads across sizes.

COST EFFECTIVE

A low cost route to finished, standardized heads.

WHY ADHUNIK ENGINEERS

THE COMPLETE LINE

Cold heading, thread rolling, trimming and slotting, all from one maker.

THREE GENERATIONS

Family run precision engineering since 1988.

SPARES ON HAND

Genuine spare parts kept in stock to keep you running.
